SUBJECT Missellaneous Military Information: DATE DISTR. 30 June 1953 Radar Training Center; Construction of Watch- towers; Military Transports; New Army No. OF PAGES 1 DATE OF INPO.  PRACE ACQUIRED  This is UNEVALUATED Information  THE SOURCE EVALUATIONS IN THIS REPORT ARE DEFINITIVE. THE APPRAISA OF CONTENT IS THAMME.  OOR RET SEE REVISED  1. At Tabloums (R53/R90), north of Warsaw, there is a Polish Army training benter for tank radar. The radar equipment used there came from Hungary, but bears Soviet inscriptions and is probably of German origin.  2. Along the German-Polish border, in Szczecin (Stettin) Voivodship, additional washottowers for the border guard have been built; for example, in the sector of the border between Nawwice (Marvitz -Off-Qh2) and Cedynia (Cadhen) a total of 19 such watchtowers have already been erected. It appears that an attempt is tening made to complete this work as repidly as possible. In this connection, it has been rumored that the Soviets, after many negotiations with the West, will leave the Soviets Cone of Cenmeny but that they will reached in Poland along the Oder River where they are acting up very strong genrigons of their own.  3. Several times a week, Soviet military transports loaded with troops go through the railroad station at hydgosker towards the west. Now and then, a military transport also goes from west to east.  4. Marchal Konstantin Rokessowski has, since about the end of April, been wearing a new and differently out uniform, resembling that worn by the Polish officers during the last war hydrogenerals will wear such a uniform, but it is not known if the younger officers will be permitted to acquire them.  Domestic than one of the Oder Chammel between Sexecule, and Swipoulgistic (Swinemende). The towers were spaced two to three Elimeters apart. This report further stated that an alarm system was being set up along the Folish-German frontier in Szczecin Volvioship.
